## Welcome speech by the Minister for External Relations and Ethnic Affairs of the Sakha Republic (Yakutia) Gavril Kirillin

Gavril Kirillin  
Minister for External Relations and Peoples' Affairs  
of the Sakha Republic (Yakutia)

Dear friends!

I am sincerely glad to welcome you to the pages of the electronic catalog of exporters and export-oriented enterprises of the Sakha Republic (Yakutia). This catalog has been prepared by the Export Support Center of the Sakha Republic (Yakutia) with the support of the Ministry for External Relations and Ethnic Affairs of the Sakha Republic (Yakutia) within the framework of the national projects initiated by the President of the Russian Federation Vladimir Putin. The previous 2022 year was not easy period for Russian economy as well as for Yakutia. However, according to market analysis foreign trade turnover had increased by more than 28% and exports by more than 31% in Sakha Republic (Yakutia) compared to 2021 year.

In order to maintain positive dynamics, Government of the Sakha Republic (Yakutia) is taking all necessary measures to support export-oriented companies. Yakutia produces and exports diamonds, jewelry, mammoth ivory, furs, alcoholic and non-alcoholic beverages, food products, in particular the rosebay tea, and IT-services. On the pages of this catalogue you will find unique, original products of local manufacturers and relevant information

This catalog presents the entire palette of export products of the region, which fully reflects the history of Yakutia, reveals the traditions of local peoples, and also reveals the export potential of Sakha Republic goods and services.

With regard to expanding sales geography and establishing partnerships, our companies are open for dialogue and cooperation!

# About Sakha Republic (Yakutia)

The largest region of Russia, with a large natural resources capacity and high level of economic potential. The capital is the city of Yakutsk. The total area of the territory of Yakutia is 3103.2 thousand km<sup>2</sup>.

YAKUTSK

The basis of the economy is the mining and extraction industry.

More than 40% of the territory of Yakutia is located beyond the Arctic Circle. The territory of Yakutia falls within four geographical zones: taiga forests (almost 80% of the area), tundra, forest tundra and Arctic desert.

Seasonal temperature differences exceed 100 °C. The climate is sharply continental, characterized by long winter and short summer periods. In terms of the absolute value of the minimum temperature and the total duration of the period with a cold temperature, the Yakutia has no analogues in the Northern Hemisphere.

Yakutia supplies about quarter of all diamonds in the world.

## INDIVIDUAL ENTREPRENEUR GRIGORIEVA OLGA GRIGORIEVNA

Individual entrepreneur Grigorieva Olga Grigorievna is the founder and head of the Kamelek trade and production company. Kamelek is a popular Yakut brand of national tableware and souvenirs with an 18-year history. The company offers its customers both traditional porcelain sets made of high-quality bone porcelain and exclusive handmade ceramic products. Besides that, the company produces jewelry in the national style of copper and brass "Altan Art". These ornaments carry a combination of antiquity and modernity. The philosophy of ethnic jewelry in the Yakut style is simple, but elegant with a deep meaning - like an invisible thread connecting all generations of women in the family. Another project of the company is Tuoy Art, a brand of pottery and ceramic souvenirs. All the company's products contribute to the revival of traditions, interest in national identity and the creation of modern ethnics, including other peoples of the world. The basic principles of work that the company consistently adheres to is high quality, modern technologies, favorable terms of cooperation and satisfied customers.

For 30 years (since 1993) we have been specializing in the manufacture of jewelry and can rightfully be called the largest jewelry company in Yakutia and one of the largest in Russia. We offer not only finished products, but also work on an individual customer order. Design of any complexity is possible.

The works are executed manually by Yakut craftsmen, using local materials – Yakut diamonds, gold and silver. Among the company's clients are world stars. Not only Russian, but also foreigners. By special order for the international sports tournament under the patronage of Arnold Schwarzenegger, the Kierge company produced 15 medals with an individual design, 24-carat gilding, enamel and engraving. Kierge also made a souvenir made of silver and gold in the form of an Oscar statuette especially for Leonardo DiCaprio. We work and create to give people beauty and to see the happy eyes of our customers.

We sincerely hope that the original beauty of Yakut jewelry will not leave you or your customers indifferent, and they will become the key to our long and successful cooperation.

We are always open for communication and we will be glad to meet in person!

## Individual Entrepreneur Zamorshchikova Nyurguyana Yurievna

Individual entrepreneur Zamorshchikova Nyurguyana Yurievna is the founder and head of a tea company with the trademark "SAKHACHAI". The company carries out a full cycle of tea production from wild ivan tea on professional equipment. Raw materials are collected in ecologically clean regions of the Sakha Republic (Yakutia).

The flora of Yakutia, despite the harsh climatic conditions, and possibly thanks to them, can become an unprecedented source of raw materials for the production and blending of an exclusive line of Ivan-tea-based teas.

The people of Yakutia, like everywhere Russia, have been preparing and drinking a drink from Ivan-tea since ancient times.

In scientific terms, it is called "KYPREI UZKOLISTYI", and in Sakha language "KUCHU OT". Ivan tea contains many important trace elements: iron, copper, nickel, magnesium, potassium, sodium, etc.

The presented teas were created in close cooperation with biologists, which guarantees the preservation of the beneficial properties of Yakut wild plants, their optimal combination in blends and a combination of production technology. The collection periods, harvesting periods and transportation conditions are taken into account, on which the quality of products directly depends.

### Awards

- ☆ The winner in the nomination "Exporter of the year in the field of agro-industrial complex" of the regional competition "Exporter of the Year Sakha Republic - 2021".

The Hotu-Bact Research and Production Center is the only enterprise in the Far East that produces medicines for veterinary use. The Scientific and Production Center has developed and approved by the "Federal Service for Veterinary and Phytosanitary Surveillance" a vaccine against strangles among domesticated horses, a vaccine against strangles of horses and a probiotic "SakhaBactiSubtil".

A vaccine against strangles among domesticated horses has been approved in Mongolia and the Republic of Kazakhstan. Scientific novelty is confirmed by 48 patents for the invention. A project is being pursued to develop probiotic drugs with a biopharmaceutical company in China. The vaccine against strangles protects up to 90% of immunized young animals from the disease.

The vaccine against salmonella abortion increases herd expansion of young animals up to 23%. The probiotic "SakhaBactiSubtil" is used for the prevention and treatment of dysbiosis of the gastrointestinal tract and respiratory diseases, mycotoxicosis, endometritis, mastitis, forage silage, as bacterial fertilizers, against plant diseases, disinfection of manure and manure, oil-contaminated soils. The head of the Research and production Center Neustroev Mikhail Petrovich - Doctor of Veterinary Sciences, Professor, Academician of the Russian Academy of Sciences, Honored Scientist of the Russian Federation and Sakha Republic (Yakutia), laureate of the Sakha Republic (Yakutia) State Prize in Science and Technology, Honored veteran of the RAS, "Honored Inventor of the Russian Federation".
